“I was continually impressed with Steve’s ability to take a database full of numbers and transform it into relevant figures and statistics. ... pull up a chair, grab a cup of coffee, and prepare to be impressed.

Steve is a remarkable person, who would prove invaluable to any organization ”

- Jessica Marose

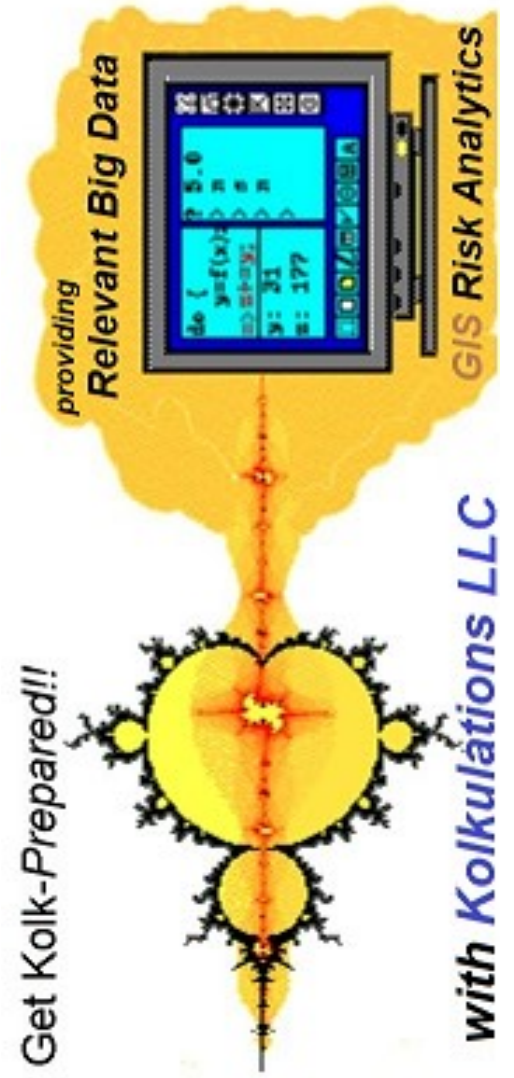

Product Manager, CoreLogic

“Steve is a rare breed -- a creative actuary -- who is also highly technical with an impressive grasp of complex topics. Steve is a uniquely talented individual. ”

- Seth Shapiro

EVP & Risk Strategist at USI

What We Do

Kolkulations LLC provides “Big Data” Mining, database design help and Risk Analytics services of climate change measurement:

- Get guidance about climate and weather data sources to improve your business by blending your data with solid facts.
- Kolkulation models go beyond the Law of Large Numbers with Extreme Value Theory that quantifies the multiplier effects of global warming and climate change.
- Reshuffle your databases a bit. Mine your data to reveal relevant big data facts. Make calm assessment of touchy climate risk situations.

Our story

Steve Kolk is one of the top actuarial experts in climate change. He visits Asheville, NC aka “Climate City” annually to stay abreast of data developments and expert knowledge.

He is a sought-after speaker on climate risk. He has spoken to the National Association of Insurance Commissioner repeatedly. He has spoken to audiences of actuaries, business, government and military across the USA.

He launched Kolkulations LLC to develop and provide factual climate change risk measures to business and industry, government and agriculture.

Our Success Stories

Here are some sample *Kolk-ulations*:

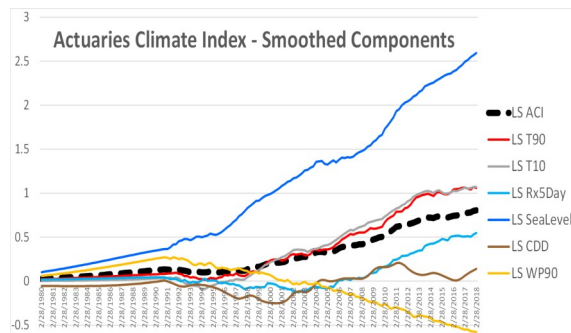

- Delivered actuarial 2018 Simon Lecture to Michigan State University faculty & students in Extreme Value Theory for disaster risk assessment.
- Key member of the international team that launched the Actuaries Climate Index (ACI). The ACI is a unique measure of the extreme climate risks.
- Advisor and co-author of Hampton Roads Pilot Study of adapting to Sea Level Rise. The report won the DOT climate award.

More about our story

Kolkulations LLC brings knowledge of many weather and catastrophe risk source to bear on your climate risk measurement problems.

Who We Are

President and Founder, Steve Kolk, is a top notch mathematician who earned a B.A. with honors at Calvin College in Grand Rapids, Michigan.

He applied those mathematical skills in decades of work at Property & Casualty insurance companies of all types: Stock, Agency & Mutuals.

VISIONARY ACTUARY and DATA SCIENTIST

Steve Kolk has done cutting-edge work that launched many new insurance and data products for big, medium, and small-sized companies.

He knows how to measure risk of all kinds, from doing hands-on work on all kinds of Property & Casualty Insurance and with Mortgage firms.

His breadth and depth of experience enable him to apply practiced big data skills and knowledge quickly and effectively. His broad skills will help you mine your data and construct KPI measures and retool databases to grow your business by evaluating major options to find your best path forward.

He is also a gifted teacher able to transfer his knowledge quickly to your staff!
